Hi Amy,

Thanks for sharing out my presentation - I heard from Allison with Thurston County who had some data to share with us. I'm thinking that not everyone opened up the presentation, or if they did, may not have noticed my request for data at the end. We'd really like to get as much as possible, especially since the cities and counties likely have some useful stormwater data, as well as ambient water quality and flow data.

Would it be possible to make a request through the listserv for folks to share any data they may have with me? Would you be willing to do that, or would you like me to do it?

Knowing that it may take some time to gather the raw data, it is also really useful to get a data inventory first (parameters, timeframe, frequency, site locations) so we know what is out there.

Thanks! Feel free to call if you'd like to talk more.

**Subject:** Deschutes mtg followup and important dates

Good morning all,

We had a good meeting yesterday with much discussion, I've attached the summary notes for your review. Additionally, I've included the presentation from Miranda Hodgkiss from EPA which gives excellent background and detailed information on the reasons the Deschutes TMDL was only partially approved, and next steps. The group discussed having Miranda give additional presentations in the future as EPA works to complete the disapproved portions of the TMDL.

A number of dates and follow-up information from the Deschutes meeting yesterday:

- **October 8, 1:00 – 3:00** - The Department of Ecology is holding a workshop on the project funding ([Streamflow Restoration Grants State Fiscal Year 2019 Interim Funding Guidelines](#)) and net ecological benefit on October 8, 1:00 – 3:00 at DOE headquarters in Lacey (300 Desmond Drive, Lacey, 98503). This workshop will discuss the 2019 funds available as a result of RCW 90.94. I've also attached the handout shared at the meeting yesterday.
- **October 16, all day** – The South Sound Science Symposium will be held at the Little Creek Casino (91 W State Route 108, Shelton, WA 98582). Registration is required and [hyperlink is here](#).
- **October 25, 9:00 – 11:00** - The first meeting of the WRIA 13 watershed planning group lead by the Department of Ecology, will be October 25 at 9:00 at the Tumwater Fire Station (311 Israel Rd. SW, Tumwater, 98501). There are a number of organizations called out for participation in the legislation but DOE is seeking nominations for others to represent residential builders, agriculture, and environmental groups. You can contact Amy or Angela Johnson ([anjo461@ECY.WA.GOV](mailto:anjo461@ECY.WA.GOV)) by early next week if you're interested. The tentative name of this new group is the WRIA 13 Watershed Restoration and Enhancement Committee.
- **November 29, 9:30 – 12:30** – next Deschutes Watershed Council meeting at LOTT.

Please contact me with questions or for clarifications.

Have a great weekend,

*Amy*
